ABOUT ME

As a result of my education life and my experiences, I had the opportunity to develop myself in this field. The projects and trainings I participated in improved my communication and production skills as well as my technical knowledge. I am someone who seeks excellence in my work. I also like to be positive and motivate people. Therefore, I think that I will easily adapt to the position you are looking for and contribute to both myself and you.

SKILLS

Communication

Leadership

Team Work

Reporting

Researching

Design

JOB EXPERIENCE

INSTRUCTOR

February 2022 - Now

- I give special education in Turkish to 2 foreign national girls who are primary school students.

INTERN

Sep 2019 - Aug 2020

Özdilek A.Ş.

- I worked in the laboratory to test, measure, and report on the products produced in Özdilek Textile Factory.

PROJECT EXPERIENCE

KARABOOK

- In the Laravel project, I used technologies such as HTML, CSS, Bootstrap, and JS. I learned how to provide data flow by using the MVC architecture while doing the project. I used AJAX Usage with Livewire and Ready Authorization library with Jetstream. I learned how to define attributes to the model, create methods in the controller, and integrate ready-made structures that prevent code redundancy in HTML pages with PHP. I learned how to make a website from start to finish by getting support.

March 2022 - June 2022

JQUERY -TUTORIAL WEBSITE

- On this website, which I created to learn the jquery library better, there is a practical version of the library methods. I'm still doing the project now.

July 2022 - Now

SIMA-ECOMMERCE

- This template, in which HTML, CSS, and JS technology are used, gives information about the e-commerce site in general. In this project, I reinforce both my design skills and my coding knowledge. The website is still under construction.

August 2022 - Now

MOONLIGHT

- On this web page, I learn how to do a parallax scrolling effect. While doing this, I aligned and moved the image file by layering it.

April 2022

ANKA HAVACILIK IHA- KARSAYI UNI. CLUB

- I worked as a member of the Software Team and the Clerk of the team in this team created to compete in Teknofest.

December 2021 - March 2022

EDUCATION

Bachelor Degree

September 2019 - June 2024

Karabük University

Computer Engineer (%100 English)

High School

September 2013 - June 2017

Nene Hatun Vocational and Technical Anatolian High School

Clothing Production Technology

- I finished my department in 1st place

COMPUTER SKILLS

Front-End Skills

- JS, Typescript, Angular
- HTML5, CSS,SCSS-SASS,BOOTSTRAP

Back-End Skills

- PHP, Laravel, MySQL, OracleSQL
- JAVA(OOP)

Libraries

- jQuery, Swiper, Owl Carousel, CodeMirror,

Others

- C, Python(Beginner Level)

FOREIGN LANGUAGE

- English - Intermediate

CERTIFICATES

- Yapay Zekaya Giriş - Global AI Hub
- Women in AI - Global AI Hub
- Versiyon Kontrolleri: Git ve Github - BTK Academy
- Database Design - Oracle Academy

MY INTERESTS AND HOBBIES

I am improving myself in artificial intelligence, web design, and design in my career. In my spare time, I like to do research on these subjects and do projects where I can improve myself. In my personal life, I mostly do things like reading books, playing court tennis, growing plants, playing kalimba, and painting mini canvases.
